**DECLARATION OF C.P. “ABBEY”
ABBONDANDOLO IN SUPPORT OF
MOTIONS FOR LEAVE TO AMEND
COMPLAINT TO ALLEGE PUNITIVE
DAMAGES**

REDACTED

I, C.P. “Abbey” Abbondandolo, declare and state as follows:

1. I make this declaration based on my personal knowledge.

2. I am the Senior Director of Security for St. Luke's Health System, Ltd., in Boise, Idaho ("St. Luke's"). I am not an agent or employee of the Idaho Department of Health and Welfare ("DHW") or any other governmental entity.

3. I spent 32 years with Houston Police Department, with 21 of those years as a homicide detective. I also spent 31 years with St. Luke's Houston, where I was the head of security. I have been with St. Luke's Boise for the past 9 years.

4. On March 12, 2022, I learned that a group of protesters had gathered at the St. Luke's Meridian Medical Center and were blocking the emergency vehicle entrance bay. A true and correct copy of the incident report related to the March 12, 2022 emergency bay protest blockade is attached as **Exhibit A**.

5. I soon learned from my security team and social media postings that the protest at St. Luke's Meridian was organized by Bundy and Diego Rodriguez and related to an ongoing Child Protective Services (CPS) case. The infant involved in the CPS case was taken to the St. Luke's Meridian Medical Center emergency department by law enforcement on March 12, 2022.

6. The infant was transferred to St. Luke's Children's Hospital at St. Luke's Regional Medical Center in Boise. After the infant's transfer, I observed protesters outside of the main hospital building at St. Luke's campus in Boise, Idaho from March 13, 2022 through March 18, 2022. These protests were also organized by Bundy, Rodriguez, and their entities. The height of the protests was on March 15, 2022, when there were several hundred protesters outside the main building.

7. I actively monitored the protesters during the dates they were present at St. Luke's in Boise. I monitored their activities in numerous ways, including by going outside approximately ten (10) different times during the relevant time period, by watching real time live

stream videos being posted by protestors on social media platforms, by directly monitoring protestor's activities through the windows of the building, and by monitoring St. Luke's security camera feeds. St. Luke's has 950 cameras across its system, so I was able to readily observe all areas outside the building where the protesters had gathered.

8. While observing protesters, I saw many of them were open-carrying handguns. One protester had a long knife strapped to his belt. Photographs of some of the protesters were gathered by St. Luke's security team under my direction during the March protests. True and correct copies of those photographs are attached as **Exhibit B**.

9. In addition to personally monitoring the protestor's activities, I received reports on their activities from staff and members of St. Luke's security team. I also received reports from security partners including members of the Boise Police Department and State Police who were present at the St. Luke's downtown campus during the protests to provide additional security support for the hospital. Prior to the protests, the Federal Bureau of Investigation (FBI) advised that threats against St. Luke's had been noted on social media.

10. On March 15, 2022, St. Luke's leadership made the decision to lockdown the main building on St. Luke's downtown campus for a period of about two (2) hours due to the real and present danger to the safety of patients and staff presented by the presence of the hundreds of armed protestors outside.

11. Based on the information I was receiving from staff and St. Luke's security partners, and from my personal observations, there were moments during the period of lockdown that I was not confident the locked doors would be sufficient to keep the building and the people in it secure from the protesters. My concern was heightened by my observation of live stream videos of protesters and other organizers connected to Bundy, Rodriguez, and their entities who

were actively seeking information about the entrances into the building, including seeking maps of tunnels which serve utility purposes for the downtown St. Luke's campus.

12. A protest phone call campaign was organized that completely jammed St. Luke's phone systems on several occasions for more than an hour at a time. The phone number for St. Luke's switchboard, which fields all incoming public calls to the hospital, was published on social media by Bundy, Rodriguez, and their entities. Phone calls were received by St. Luke's from approximately 30 different states. Some of the callers left threatening messages, while others relayed threatening or disruptive messages to the St. Luke's switchboard operators. Heat maps were produced by St. Luke's security team to show the concentration of calls received from the various states from March 13 through March 16, 2022. True and correct copies of the heat maps are attached **Exhibit C**. St. Luke's retained records of threatening or disruptive messages for security purposes. True and correct copies of the noted messages left by supporters Bundy, Rodriguez, and/or their entities are included as **Exhibit D**. One of the callers indicated that St. Luke's should be on the watch out for a trucker blockade of the streets surrounding St. Luke's. A true and correct copy of the recording of that call is attached as **Exhibit E**.

13. Due to the ongoing threat of a physical breach of the building by protesters during the height of the protests on March 15, I worked with the St. Luke's medical staff and others to formulate a plan to keep the infant safe from harm should a breach of the building occur. We made the plan not only to protect the infant, but also to protect the staff in the event of a confrontation with protesters inside the building. We made the plan because, in my estimation as an experienced law enforcement and security professional, there was a real and present risk the protesters could enter the building—despite the lockdown.

14. In addition to managing the threat posed by the protesters outside, I also had to manage threats from the inside of St. Luke's. For as many good apples as we have, we have bad apples as well. I knew that there were people inside St. Luke's, likely staff who were aligned with the protestors and who were communicating information about St. Luke's actions to secure the building to the protestors outside.

15. The diversion of attention and resources to manage the risks posed by the March protests meant that regular and important work was delayed, including the regular checks performed by security staff on high risk patient groups, assisted transfer of patients in custody to different areas of the facility for testing or for other medical or administrative reasons, and assisting employees with basic security-based requests, such as lockouts due to badge malfunctions and other issues.

16. After the protesters finally stopped physically showing up at the hospital on or around March 18, 2022, the threat to St. Luke's and its providers did not end. Several of St. Luke's providers were doxed by Bundy, Rodriguez, and their affiliated entities. My team at St. Luke's has worked with the doxed providers and other concerned providers to promote their safety and well-being both at work and at home. In addition, my team continues to monitor online chatter and media concerning St. Luke's and its providers.

17. St. Luke's has also undertaken research and investment in new security infrastructure as a result of the threats created by the March 15 protests. These efforts represent a significant capital expense. The efforts are necessary because the false information about St. Luke's and its providers posted online by Bundy, Rodriguez, and their entities remains on the Internet. Because of this, the "cause against medical kidnapping" could be taken up at any time in the future by someone else who comes across the false information.

18. In my role as Senior Director of Security, I oversee a team of dedicated security leaders. As part of my role, I also manage the work of St. Luke's Threat Assessment Team and coordinate with St. Luke's Emergency Management Team. Through coordination and contributions from St. Luke's security leaders and members of those teams, we documented the events from March 12 through March 18, 2022 in real time. The results of the documentation were combined by my team into a report dated April 8, 2022, entitled "Child Protective Services Protests, March 12 to March 18, 2022." A true and accurate copy of the report is attached as **Exhibit F**.

I declare under penalty of perjury of the laws of the State of Idaho that the foregoing is true and correct.

Executed this 8th day of November, 2022.

*** Dispatch Information End ***

On Friday, March 11, 2022, at about 0130 hours, I, Officer [REDACTED] along with Officer [REDACTED] were dispatched to the ED for a Disturbance outside of the Ambulance bay. Upon arrival I observed several uniformed Meridian PD officers standing in front of the ambulance bay doors to the ED. I also observed and heard, several unidentified civilians yelling at the officers as they stood in front of the closed bay doors.

I was informed by the ED staff that Meridian PD just arrived with a CPS case worker that had custody of a minor child. The minor child was later identified as, [REDACTED], and was reportedly removed from his birth parents home per a court order. [REDACTED], along with the CPS case worker, were secure inside of the ED.

I exited the Ambulance bay doors to assess the situation. I observed a large male and three females yelling at officers demanding that they hand over the baby. The females involved were recording the interaction using cellular devices. When they weren't recording with the devices, they were observed making phone calls and sending text transmissions. The male, later identified as Ammon Bundy, seemed to be the catalyst and aggressor in the group.

I conferred with the House Supervisor, [REDACTED], and the decision was made to request the group to move to the grassy area North of East Saint Lukes St. [REDACTED] and I approached the group outside. I addressed Bundy and his followers and informed them that they were currently blocking emergency access to the ambulance bay. I informed them that they were permitted to stand and voice their opinions while standing North of East Saint Lukes St. Bundy and his followers were not satisfied with this, and continued to yell and curse at me. I informed the group that if they did not comply with my request, that they would be trespassed.

[REDACTED] also attempted to intervene and deescalate the situation. Bundy then turned his focus and aggression towards [REDACTED] by demanding that he, [REDACTED], hand over the baby. The group accused [REDACTED] of kidnapping the baby and holding it hostage.

The crowd of protestors began to grow in numbers very quickly. I had Officer [REDACTED] secure the ambulance bay doors manually, as they were ajar due to all the motion in front of the sensors.

[REDACTED] provided Bundy and the protestors with an additional and final warning. Bundy began taking pictures of our hospital identification badges with his cellular phone, and refused to disperse. At 0145 hours [REDACTED] requested Meridian PD SGT. [REDACTED] to arrest the protestors.

The first individual to be placed under arrest by Meridian police was Bundy. Bundy complied with their commands and was

taken into custody without incident. The second individual to be taken into custody by Meridian police, was protestor Wendy Whitaker. Once Bundy and Whitaker were taken into custody, the remaining protestors appeared to loose their motivation and fled to edge of the parking lot near East Saint Lukes St. to congregate.

Now that the ambulance bay was clear and accessible, [REDACTED] and ED Physician [REDACTED] decided to surreptitiously relocate baby [REDACTED] to St. Luke's in Boise. I assisted hospital staff and Meridian PD with developing and executing a plan to transport [REDACTED] from our facility to Boise.

[REDACTED] was transported via Ambulance to St. Luke's Boise around 0200 hours without further incident, using the West Atrium exit door.

Meridian PD staffed the ED ambulance bay area with two uniformed officers for the remainder of the night until 0700 hours.

[REDACTED] was advised by reporting officer that any employee requesting an escort to or from their vehicle would be accommodated.

No staff, officers, or civilians were injured as a result of this incident.

You are not doing the wishes of the parent. You are supposed to have the best interest of child in mind when treating babies and your behavior over the last 24 hours in add'l to behavior 3 weeks ago is (word inaudible). There will be charges filed. You are hiding a baby. You won't release his name, tell us how he is doing or let the family in. I'm disgusted and will be filing charges against you.
3/14 12:05am		Carla	Hi my name is Carla and I'm calling re: baby Sirius Anderson who is currently in the hospital's custody and I respectfully and firmly request this baby be returned to family. Violently removing baby from parent and trauma of removing child and lack of breast milk is not the best interest of the child. This separation is abuse and follow the Idaho law, otherwise, you will be responsible for his health outcome.
3/14 12:24am		No name left	I'm calling as a concerned person to release baby Sirius from the hospital's hands and give back to the parents where that child belongs. I know that you are aware of what I am talking about. I'm asking in God's name that this child be returned to his parents.
3/14 1:05am		No name left	I'm calling about baby Sirius and I've been reading this story and I'm quite upset and not the only one. This baby should be given back to the parent. Thank you very much.
3/14 3:33am		Jenny Kaiser	Hello my name is Jenny Kaiser and I'm leaving a message and I've called repeatedly. I'm keeping in touch w/ baby Anderson's family and received an update today that after the parents were allowed to see the baby is that the baby's condition is worsening. It is absolutely agreeable that mother is not allowed to be in the room all the time to nurse. I'm demanding that she can be present to nurse at every available opportunity.
3/14 6:00am		John Longhurst	Hi this John Longhurst so I live in Meridian. 7/19/53 is my DOB. I'm calling to ask questions and protest about this baby named Sirius Anderson who was underweight and CPS got involved. His mother had to cancel an appt and CPS was called and Meridian PD had to get involved. The baby was forced from mother's arms at gun point according to email I received. Sounds like big time abuse from CPS and Meridian PD and I want to know what the heck happened and what is going to be done about this and how we will fix this so it doesn't happen again. Leave a message if I don't answer when you return the call.
3/14 6:43am		Mark Triple	Hi this Mark Triple out of Wyoming and I am a lawyer here to tell you that little baby Sirius needs to be with the mother at all times. The whole world is watching your suspicious activities so keep this in mind and pass along to your staff and others in your organization that you are being watched.
3/14 7:12am		Cassandra Ivim	Good morning, my name is Cassandra Ivim and I'm w/ a group of mothers and we want you to know that the lawful property of the baby is the parents. We are watching that the hospital do the right thing.
3/14 7:14am		Holly Grow	Hi this is Holly Grow DOB 8/27/62 and I'm hoping you have reunited baby Sirius with Marissa and Levi Anderson.
3/14 7:35am		Marilee Conlee	Calling from Priest River, Idaho as a concerned mother/citizen/grandmother and appealing to hospital and pleading that this baby can be breast fed and reunited with baby. Myself and my husband will join with any lawsuit in the kidnapping charges. Shame on you and you will pay for this through a court order.
3/14 12:24pm			Hello, I am calling in re: to case of Levi and Marissa Anderson and their child Sirius case and I want you to know that this has caught the attention of all across America. Please reunite this family, visits are not enough and We the People will stand behind this family and fight because your actions and the action of the PD have angered every mother in America. Please reunite this family with their child 24/7, visits are not enough. We are standing behind this family and we are going to fight. You are not doing what is in the interest of this child and best interest is to be with mother and breastfed. I'm in ranching and I know this is how you kill something. We are watching you and we will continue to watch you.
3/14 1:25pm			I'm calling in re: to baby Sirius who is in your custody and not doing well. He is in need of his mother and her breast milk in order to survive and I would humbly request that you release him to his mother and at the very least let her be with him. I'm asking this for the life of baby Sirius, please, do this for him.
3/14 1:29pm			I'm appalled about the way Sirius Anderson is being treated and I want the administrator to know that my daughter is going to be delivering at your hospital but since hospital will forever be know as the hospital that kidnapped this baby, she will be finding a new hospital. Also, I strongly encourage you to change your voicemail recording because baby Sirius care is not an 'exceptional experience'. This is kidnapping and wrong what you are doing. At least let the patient be w/ his parents or do the right thing and release the baby now.
3/14 1:35pm			This is Debi in Canada calling from 906-203-0480 and I've heard about this kidnapping of baby Sirius and how this baby was abducted from his mom w/ a SWAT team. This is absurd and ridiculous.... Phone cuts out due to poor connection.
3/14 1:36pm			I'm calling about a patient, young baby Sirius Anderson. We are asking that you would release Sirius to his parents. I know you are getting other calls but we feel very strongly about this. We feel like this is a over reach and inappropriate and ask that he be released to his parents.
3/14 1:36pm			My name is Todd and I live in Rigby, ID. I am calling re: baby Sirius being reunited w/ his parents and would like to speak to someone there about what happened. My understanding is that the medical staff overstepped their bounds and took the child and the police acted unconstitutionally to enforce that. I would love your perspective and I believe the parents have concern over child, not the police or medical staff. As far as I know there was no abuse on the parents part. I'm asking for the medical side of the story re: this case and am requesting a call back.
3/14 1:46pm		No name left	This is Preshon Bowma calling from Moscow, ID calling about baby Sirius. Idaho is very clear about parental rights and I believe you at the hospital should be paying attention to the requests of the parent and what they think is beneficial for the care of the baby. This baby should be able to see his mother and part of the patients rights. We will be contacting our legislature about this situation and you should be liable if you harm that baby.
3/14 1:46pm		I'm calling about baby Sirius and a very concerned community member. Please allow the mother to breastfeed that baby before he dies.	
3/14 1:47pm	No name left	I had called awhile back and left a message. My wife was in the ER recently and we are very dissatisfied and ended up having to see a surgeon for f/u care. I did receive a callback 1 week ago and was asked to just call back. If you call, can you leave a direct number so I don't have to leave a message?	
3/14 1:51pm	No name left	This is a concerned citizen about the baby Sirius situation. I most certainly hope that St. Luke's is allowing his mother to come in and nurse him. You are basically holding that baby hostage away from his mother. I certainly hope St. Luke's has common sense and does the right thing.	
3/14 1:54pm	No name left	I'm calling re: baby Sirius and held against his will. This is kidnapping and you will be held accountable. Do you really want to go to jail? You can look forward to that.	
3/14 3:07pm			

Sent to agent to call back-1458

Date and Time	Phone number	Caller Name	Details of call
3/14 3:07pm	Redacted		Calling to demand to an investigation of one of our doctors for the removal of baby sirus from his parents. The nation is demanding that he is given back to his parents. Our hospital needs to step up and investigate that doctor.
3/14 3:09pm		Grady	This is in regards to the police kidnapping of baby Cyrus. The parents have committed no crime and it's not our right to take the child away. This is criminal to not allow the parents to see the baby.
3/14 3:10pm			Calling in regards to the baby Cyrus. We need to give back the baby to his parents. We are disgusting and we sell babies for sex trafficking. If anything happens to this baby we are going to file a law suite against you. That mother is totally sane and we kidnapped and we have already probably sex trafficked this baby and raped it.
3/14 3:11pm			Shameful what has happened with baby Cyrus and everyone involved should have law suites against them. Will never go to St. Luke's ever again
3/14 3:13pm			No message left
3/14 3:13pm			Wants a callback regarding the kidnapping of baby Cyrus. If we could just give her a callback so that she can find out how this can be resolved so she doesn't have to blast this all of the media.
3/14 3:13pm			We're keeping Cyrus from breast feeding and this has become known globally. We should think carefully about the decisions. We are a disgrace
3/14 3:17pm			This is a demand that you need to let the mother back with her baby so that she can breast feed. You will see legal action and there's a group of us that are very concerned and taking action. We demand that Aaron Dikestra resign
3/14 3:22pm		Russel Smith	This child needs it's parents and why would you not allow them to be and expects a call back
3/14 3:22pm			Appartently we are to the point where we send all our calls to vm. We have got to let that mother see her baby as the baby needs her nourishment and we aren't god. We need to do something before it's too late.
3/14 3:34pm			Our entire admin is on display and we should actual help the baby and let the mother in there. It's insane that we would take the baby from his mother
3/14 3:34pm			Since when is it okay to kidnap a child and then not take care of them. Since when is it okay to kidnap a child when they just missed one appointment. I hope you get sued
3/14 3:37pm			Calling about a baby Cyrus
3/14 3:37pm			She's from Colorado and the news of baby Cyrus is all over the nation. We should allow the parents to be with their child
3/14 3:39pm		Dale Weston	Don't think it's okay that the parents can't see the baby and let him breast feed. We should let the parents see their child
3/14 3:40pm		Lauren	Can't believe that we are still holding that baby at our hospital and that he's not being given an enema and isn't being taken care of and we should stop this insanity. She doesn't even live in this state. Can't believe that we would allow the parents to not be with their child
3/14 3:51pm		Tracy	Calling as she is concerned about baby Cyrus and he should be returned and she thinks that it was an over reach for that doctor to call CPS. Wants a call back
3/14 3:51pm			Calling in regards to baby Cyrus. She thinks it's disgusting that we are working with CPS and our story is all over the internet. The mother should be allowed to be with her baby
3/14 3:51pm			The mother isn't allowed to nurse this poor baby and that's abuse that we are doing that.
3/14 3:52pm			Calling in regards to baby Cyrus and we should allow the baby to be breast fed. What we are doing is wrong
3/14 3:53pm			Calling from Texas, we should let go of Cyrus and this is medical over reach
3/14 3:53pm			Is really concerned that we aren't letting the mother to be breast feed and nothing better happen to that baby on our hands and it's going to go national if something does. We owe it to the public to let them know what we are doing
3/14 3:54pm		Sarah Stevens	Wants a callback and the baby needs to be with his mother so she can breastfeed. We need to be able to trust that you are there to take good care of patients. We need to stand up against CPS and if he dies his blood is on our hands
3/14 3:55pm			Has called several times and she wants to find out if baby Cyrus has had an enema as that's what should be done. Free this baby
3/14 3:56pm		Cheryl	She is a retired nurse and from Louisiana and just read the article about Cyrus on the Sequil website. On the website it states to
3/14 4:18pm			Give return Cyrus to his parents, thank you
3/14 4:23pm			The whole world is watching your hospital and hope you do the right thing
44634.72986		Sarah	I was just calling I have some concerns about some of the staff at the hospital and the way they are treating one of the patients. My number is 541-410-0076. I am a former HR manager and I am very concerned about some of the staff's behavior. Thank you.
44634.22639			I work in the medical field and I am calling about the baby Cyrus situation. What your hospital is doing to this baby and this family is against the oath that doctors and nurses must take. This baby wants to be home with his mother receiving proper care. Please do the right thing for this baby and his family. Follow the oath that healthcare professionals are supposed to take and read the bible the word of God. What you are doing is against god and the bilble. No one is to hurt the children of god. So please do the right thing for this baby and his family.
3/14 5:10PM		Meadin Call???	I have been informed about the situation with that baby Cyrus. I have had experience with Meridian St. Luke's in the NICU with my own child, for a good 15 days or more. I am really concerned that the mom is not being allowed in to breast feed her baby prior to maybe formula feeding the baby. That is something I was always allowed to do in the NICU. Also I think that baby needs to be reunited with his mom for the best benefit of it's call. I have a lot of concern and questions. If you want to give me a call back that would be great. I'm just thinking that maybe these doctors in charge are not compitent, and someone needs to put there foot down and allow this baby to be in care of it's mother in addition to medical care, but first and foremost with it's mom. Give me a call back and I would be happy to talk. Thanks.

Date and Time	Phone number	Caller Name	Details of call
3/14 5:02PM	Redacted	Monique	I don't need to leave my DOB, but I was hoping to talk to a person. I was made aware of a situation that happened to a family with a NP named Erin. Instead of dealing with the parents directly Erin thought it was necessary to call CPS and it turned out to be a big shindig. The mom wasn't allowed to be in the ambulance and go to the hospital to get the baby and have the medical procedures that this Erin your NP thought was necessary. I thought that was horrible. When you have a little one that young, named baby cyrus, I'm sure you have gotten some phone calls on this, maybe you haven't, but at anytime no parent, mom or dad, should be denied riding in an ambulance with their child to any hospital. I don't care where they have to go and I don't care of the age of the child. I believe it is a violation. It's a violation of parental rights. A child is always able to do better when either the mother or the father are there and they are getting medical procedures done. So I just wanted to call and let you know that I am very disappointed. I am very disappointed in the NP Erin for not dealing with the parents and feeling it necessary to get CPS involved. Not good. Not good for your facility. Not for this Doctor. I would tell him personally or who ever is listening to the message, Do you have children? Does this NP have children? Would you like it if it was done to your child? Yes or no? You probably wouldn't like it, so don't do it to other people. Have a good day.
44634.20694		Dale Bowen	Yea could you return baby Cyrus to his parents where he belongs?
3/14 4:56PM		Heather Church	Calling from Oregon. I don't necessarily need a call back, but I am calling to voice my genuine concern over the young child Cyrus who was removed from his parent's custody and is separated from them in the hospital. It is just a heartbreaking situation and it just does not make sense that he is not able to be with his parents in the hospital. That seems like that is really detrimental for a young child. I have raised 4 children and I have 6 grandchildren and it is just hard to imagine that in a situation like this that it's beneficial for him to separated from his parents and only strangers in an unfamiliar environment. Especially when his mother is nursing him. I am just calling to voice my concern about that we are praying for them and we are hopeful that something can change and not face the fear and confusion of being separated from them

Date and Time	Phone number	Caller Name	Details of call

3/15 9:16am			Very concerned that he has been seperated from his parents and not being able to breast feed. Everyone is watching you	
3/15 9:21am		Kayla Gallagher	DOB 7/30/1997, Phone number 808-931-9412. She is calling and wants the baby to be released. She went to school for psychology and what we are doing is going to permanently give this baby brain damage.	
3/15 9:25am		Ken Wagner	I am calling to report a crime, it is the kidnapping and possible murder of baby Cyrus. We should be trying to take care of patients and instead hospitals are the murder industry. We are going to end up in hell	
3/15 9:25am		Mary Harvey	Baby Cyrus needs to be back with his mother, please release him	
3/15 9:25am			No message left	
3/15 9:31am			I don't need a callback but we need to stop human trafficking and kidnapping.	
3/15 10:15am		Sandy Adamson	She is a patient of St. Luke's and wants to know if we are still requiring employees to be vaccinated? Just want to let you know that there's a people's convoy at Hagers Town Speedway in Maryland and they are there due to our CEO's over reach into their rights and freedom and they won't be leaving until something changes. Our CEO should have a public announcement to appoligize for his over reach and should also not require us to get the flu vaccine as he has no right	Sent to agent to call back-1037
3/15 10:16am		Cathleen Brit	Calling in about her son Jason Brit, DOB 11/2/93. Don't remember the lady that sent the letter and in the letter it stated that everything was followed correctly but that's wrong. Security didn't follow protocol, grabbed him out of bed and hurt his ankle. They refused to give her son anxiety meds and blood pressure meds. She is upset with the social worker. Son ended up passing away a week later at St. Als from a brain bleed.	Sent to agent to call back-1023
3/15 10:17am			Many of us outside your state are watching and we just want the baby released to his parents	
3/15 10:37am		Elizabeth Jordan	Elizabeth Jordan from Delta, Utah - it has come to my attention that he has been kidnapped. Please call me back to discuss. If you are not willing to call me back I am requesting that the doctor order the mother to be able to come and breastfeed the baby while the legalities are figured out.	
3/15 10:36am		Cathy Custard	Cathy Cusard - calling on behalf of my mother Deloris Robbie who was in the hospital a few weeks ago. Letter was sent that they are looking into her complaint. She has not heard back from anyone and is hoping to get to the bottom of this. I am not going to let this go, it was not fair what happened. Please return my call.	
3/15 10:30am		Darlene Smith	From North Idaho. Calling about the baby Cyrus. Her concern is she does not know both sides to the story. Emotional damage is being done to the baby. I have a grandson who is the same age. I can't imagine the trauma that is done to that child. Why can't the hospital allow the mother to be with that baby. There is no reason that the baby can't be breastfed by the mother. Surely there is a way that you can make this work. If you care, the mother would be there.	
3/15 10:28am		Rhonda	From Springfield, Oregon 541-913-7582. I just read a news report where you have kidnapped a 10 mo old baby and claiming that the parents have put this child in danger and removed him from his home. This is ridiculous these are stellar parents but I suppose this is because they are Christian. I want a call back I will do my best on my end to push this video to be viral. You need to release this child back to his parents and let him go home. This is outrageous that you would be okay with this kidnapping. You want to destroy this Idaho family for what your global agenda and remove Christianity and remove god and country. Is that what this is about? Are you using this child as your over-authority. Return this baby to his parents.	
3/15 10:26am		I am calling to support Baby Cyrus parents and request the release of the baby or let the parents be with him. If this has not been done, then this is tragic and unfortunate.		
3/15 6:04am		I am calling in concern for Marissa and Levi Anderson who had their baby taken from them unlawfully. I am asking your hospital to please do the right thing and give the baby back to his parents where he is safe and belongs.		
3/15 4:42am		I am calling in regards to Baby Cyrus. You have to release this child to his mother. When a child is nursing and they suddenly stop you are hurting the child, you are the problem, you are toxic. You need to evaluate your morals and your ethics. You are not saving the child you are in the process of killing the child. Return that child to his parents.		
3/14 11:38pm	Casey	I am calling on behalf of parents of Baby Cyrus. I am horrified to see what you are participating in and doing to this child and taking him away from his mother. Government over reach to the extreme. There is no reason for this to have happened. I know of the parents, they are responsible. I am concerned for the baby and the parents and the baby should be returned. The doctor, police department, and government officials in Idaho are awful to do something like this to this family and this child. It needs to stop. I will not back down. The forces will be gathering against this and making it more public. You can't get away with this.		

Date and Time	Phone number	Caller Name	Details of call
3/14 11:27pm	Redacted		Referencing Baby Cyrus who was taken away from his mother. Seems strange doesn't it? CPS was involved with a nurse provider and took a baby a way from his mom who was breastfeeding him, very odd situation. Maybe you should look into it and release the child. I will spread this around social media. Will be a very interesting story. Good luck to you, karma is a b****.
3/14 10:44pm		Stephanie	Calling on behalf of baby Cyrus and urging that he be reunited with his mother for his safety, health, and well being.
3/14 9:25pm			I have a concern for a baby in your hospital named Cyrus Anderson. He was taken from his parents unlawfully. His pediatrician said to drink goats milk when he was throwing up which made him sick and worse. He will only take breastmilk from his mother who was separated from he. He needs to be released and return to his parents.
3/14 9:17pm		Julie Adamas	Calling from Texas to demand that Cyrus Anderson be returned to his parents. He has been kidnapped and is being held and his parents are not able to see him. This is outrageous. This is medical kidnapping. There are national organizations involved in helping returning this baby to his parents. I am apart of an outrage across the country. I can't believe this would happen. Please return this child back to his parents asap.
3/14 9:13pm		David	Calling in regards to Cyrus Anderson. From California. This unacceptable behavior from his mother and father. I wanted to check up on Cyrus, Marissa and Levi. Please call me. This is a national story to get some information on what is happening at your hospital with the police department and CPS. The child wants his parents. Thank you for calling me back when you get this and updating me on Cyrus.
3/14 8:50pm			Calling about baby Cyrus. I am concerned about the situation. This is a nursing baby who needs to be with his mother. This is a nursing mother of 9 babies, that baby needs his mom. T
3/14 8:37pm		Sherry	I am calling for a concern that I have for a patient at your hospital, Cyrus Anderson. I am concerned that he is detreating in your care. Knowing that his mothers breast milk is the best thing for any baby and you are denying this baby of that. I am frightened to bring my family there. I will not bring my family there. St. Luke's should create a game plan and let the mother be with the child and best case scenario return the child to the family. Make a statement how you will take care of our community when we are sick and not continue to making people sick. This is bringing forward many other experiences that have taken place at St. Luke's not just child's. This is alarming that our great city and best hospital is harming us and the world is learning of it. The doctors, nurses, and employee's of this hospital should think about that. Do what is right for the child and give him the mothers breast. Call me if you would like any more suggestions.
3/14 8:23pm		Marlene Brady	Marlene Brady - I want someone to call me back. I am calling regarding the baby in possession, Cyrus. I am wondering why the state can demand to take a baby from their family. The doctor, social worker and law enforcement do not have any rights to remove a child from his home. He is obviously does not have malnutrition and is not unhappy. I want a call back. This is violation of the parents rights. You need to release this child from your custody and put it back in the hands of the parents. How disgusting is this? I would like a call back as soon as possible.
3/14 8:16pm			Leaving a message about Cyrus Anderson being admitted to St. Luke's Peds. This child was kidnapped from his parents and forced into the hospital. My number is 206-640-5535 call me back when you get this message. I want to know if this is true or not.
3/14 6:47pm			Calling because I heard that Cyrus is being held there against his parents wishes. This is your chance to stand in history and do the right thing instead of blindly doing your job as you are told. We can all think of times in history that his had happened. Even though it seems ok in the time it ended not well at all. I ask that you allow his parents to take part in his care and allow him to go home if they wish.
3/14 6:37pm			Concerned citizen from multiple states away. You holding Cyrus is messed up and I think you should release him. I am parent of a newborn. I can't imagine what these parents are feeling from the neglect negligence from your nurses and your care. This not the first time that this has happened in your facility. I will continue to call this number so I can have continued conversation. Have a horrible day because this is f***** up.
3/14 6:29pm			Calling on behalf of Cyrus for all parental rights in the United States where we have that right. I am asking that his parents be apart of his care. I know you have his best interest in mind which is why he must have his mother by his side immediately. I pray that you make the right decision that this little boy with have full healing with his parents by his side. I pray that no one ever does to your children what you have done to this family.
3/14 6:26pm			Calling about the most recent news of you kidnapping this baby. It is nation wide news. Wanted you to know that we have family members who were considering delivering their baby at St. Luke's and will no longer and we now consider you the hospital who kidnaps babies. What you are doing is evil and we would appreciate it you would pass this info on. The entire community is concerned and in uproar. The audacity that you have to take this baby from his mothers arms. Hoping you do the right thing and hope somebody acts accordingly.
3/14 6:20pm		Ashley Casteo	You are welcome to call me back. This message is in regards to baby Cyrus. I hope you are getting a lot of calls about this and standing outside of your hospital protesting this. This child needs to be back with his parents. He is in worse care at St. Luke's. I don't understand how you think taking this child away from his nursing mom. My heart breaks for that nursing mom. Everyone needs to take a close look at this before you shut the parents out and not letting them in the room. I am voicing my concern and praying that this will settle. Speak up for this. I would love to talk more if you would like to talk more. I will keep calling.
3/15 11:57am		Kristine Hinthorne	From Illinois Calling on behalf of Baby Cyrus Anderson and his mother needs to be with that child. You are not treating him well and they need to be together. Thank you.
3/15 11:56am		Larry	I am calling because I understand that CPS has brought a baby named Cyrus to your facility and the mother was standing right there, with no good reason, it was a happy and healthy baby. I am calling to encourage the medical center to release baby Cyrus back into the hands of the parents where he belongs.
3/15 11:32am		Kristine Perez 5/24/85	Only left name DOB and call back number
3/15 11:23am	Pam Himphill	Return call. She may not be able to get back to you. Only between 12-1. Thank you.	

Date and Time	Phone number	Caller Name	Details of call
14-Mar	Redacted		I am calling to register my concern about baby Cryus Anderson being held there apart from his parents. I am a Therapeutic, Licensed Foster Care Provider in Washington State. I looked at all of the circumstances, clearly something else is going on there. He could obviously be released to another relative or to grandparents or to allow his mom to nurse. There is all kind of options, its clearly something else going on. We're watching what you are doing and just wanted to register that with you. Thank you.
3/14 5:44am		Brad Marco	MY name is Brad Marco and I am calling in regards to what you guys are doing with baby Cyrus, not allowing his parents with him as an infant. That is ridiculous. People are finding out what is happening here. If you don't allow his parents to be with him there is something wrong with you. Get it figured out, let them be with him. This is frickin America, not some frickin some 3rd world Country yet. I hope to God that if you stand before him you don't follow through with what you are about to do.
3/14 5:40am			I am calling as a concerned citizen of Boise. I am calling to level a concern about the baby named Cyrus that you're holding against his parent's will. I am calling to state concern that you will not allow the mother and/or father to present with him full time. I am going to request that you allow the mother to present with him full time. This is an absolute disgrace to our community. The news about what you are doing is starting spread Nation wide and we will continue to bring pressure. You are abusing that little baby.
3/15 127 pm		No Name left	Calling about baby Cryus and requesting to speak w/ someone at the hospital to fact check everything and I don't understand why the hospital is not answering the phone. The only thing I can think of is that due to high call volume, you are avoiding calls and sending to voicemail. This means you are very guilty and if at any time a child and parent hasn't had a chance to go to court, the hospital is kidnapping.
3/15 126 pm		Tamara Parker	Tamara Parker DOB 12/21/60. Calling due to ED visit on 2/24/22 where pt was admitted and had gallbladder removed. Insurance refusing to pay and needing assistance w/ insurance appeal process.
3/15 122 pm		Jen Lanom	This is Jen Lanom and you do not need by DOB. Calling to say you do not have very good patient services and calling on behalf of baby Cryus. This is an outrage and you are withholding this baby from breastfeeding and if this baby dies, no one will never want a child in your hospital again. This is a kidnapping, a sham, this is international news and you need to do the right thing and just remember, you will face your maker one day about this.
3/15 107 PM		No Name left	If you don't give Cryus back, you won't have a job and we will make sure of it.
3/15 106 pm		Debra Sharellella	My name is Debra Sharellella and DOB 5/30/57. I'm calling about baby Cyrus and calling for Marissa, the mother. Let her in to take care of her baby. This is not right. Please let her in and let her be with her baby. I'm almost in tears.
3/15 106 pm		Scott Kline	I want to share my feelings on reuniting baby Cyrus w/ his mother and it's very important that he get his mother's breastmilk. This is completely wrong. Please call me back asap.
3/15 1257 pm		No Name left	I'm calling in reference to baby Cyrus that his grandfather, Diego Rodriquez is saying you are holding there. That baby needs his mother and it doesn't look what you are doing. Guess what, everyone around the country is finding out what St. Luke's is doing. I will share this w/ everyone I can. This family has support all around the country.
3/15 1229 pm		No Name left	I'm calling as a concerned parent re: situation w/ baby Cyrus. Dissappointing to see hospital working in conjuntion w/ CPS. I've heard the baby's health is deteriorting and not getting mother's breast milk and these types of policies cause good parents to fear getting hospital treatment. Parents have a right to question medical decisions. This is insane and needs to change and I'm hoping these calls put pressure on you to reunite this family. This baby belongs to his parents so please do the right thing and reunite w/ his parents.
3/14 455 pm		Loraine	My name is Loraine and just heard the story about baby Cyrus, beginning to end. As a mother, this is medically kidnapping and I will complain every day until he gets released. A baby not feeling well needs to be with his mother and not fed food that is harming him. Have morals, do the right thing.
3/14 455 pm		Sarah Alsop	I'm calling because of patient Cyrus Anderson who is not being allowed to see his mother, a breasfed baby who has deteriorated under your care. There is video proof of him doing well prior to being admitted to your hospital. Now w/ his mother not being able to see him, he has gotten a feeding tube. Please allow his mother to be with him. I understand CPS is telling you to do one thing. Stop hiding behind CPS and step in and care for this patient and CPS has nothing to do w/ the care. I pray that I never have to go into your facility because it proves you don't care about patient care but rather about CPS. This is terrible PR.
3/14 451 pm		Elisha	I'm calling on behalf of Marissa Anderson to release baby Cyrus.
3/14 439 pm		Pat Morrison	Calling to ask to give custody of Cyrus to his parents or at least allow the mother into the room to take care of him. Thank you and God bless you.
3/14 438 pm		No Name left	Calling about baby Cyrus Anderson whose parents are Levi and Marissa and calling from Wyoming. This is receiving national attention and we will stand behind them until baby is brought back w/ parents and that their rights are being overstepped by hospital. We are behind them. Make this right quickly and gracefully as this will not be good for your hosptial.
3/14/22 203 pm		No Name left	I'm calling about baby Cyrus and the kidnapping. I want the baby back w/ his family and nobody has the right to kidnap. We know what happens to them, we know what happens when they are kidnapped. The whole country knows now. Get that baby back before he is dead.
3/14/2022 203 pm		No Name left	No need to return my call, same lady from Tennessee. An hour ago the people at the court hearing were informed that CPS will take the baby and place in a foster home. What type of people do you have in your hospital? What type of people do you have working there? I wouldn't go near your hospital. Stop this and give this baby back to parents. This is the most evil thing I've heard of. It needs to be breast fed so you stuck a tube down it's throat. It hasn't gone to the bathroom. You guys are mosters there. Give this baby back to his mother and stop CPS from stealing this baby and hiding in a home. Your reputation is done. Good bye. You better help that baby.
3/14/22 202 pm		No Name left	I'm calling from Virginia and saw online the most horrific video of CPS taking away a baby from his parents. Very disturbing video nd I had to call to tell you this is wrong and you need to be held accountable. Stealing babies from parents is not ok and I hope that justice is served.

Calling to register my complete distain for your organization who will not let a mother breastfeed a baby when your hospital determined that is all the baby could handle. You are working hand in hand w/ CPS and Meridian PD and breastfed babies need their mom. You are trying to stuff it full of formula and the baby is now lifeless and you are trying to sneak it out of the hospital and the parents are trying to get the baby. No one will ever use St. Luke's. You are suffering in the public opinion. People don't like this. God is watching and judging and you will be brought to this at some point. Make this right, bring the baby to his mother right now.

03/14/22 257pm		Tom Bushman	Calling in regards to baby Cyrus that they hospital has taken and CPS has taken. It is completely unconstititutional and this is a violations of the constitution. 03/14/22 244pm		No Name left	Trying to reach someone at the hospital and I heard on the news that the hospital took baby Cyrus as he is a nursing baby. 03/14/2022 222pm	Redacted	Paula	Calling from Wisconsin because of baby Cyrus being taken from his loving parents. You have no right to take him from his parents. I would like you to do the right thing and make sure he is with his parents. It was completely wrong.
03/14/2022 220pm		no name left	I want to encourage the hospital to allow his parents in as it is important for infants to be with their parents.
03/14/2022 219pm		no name left	Calling regards to baby Cyrus who is separated from his parents. This is a very disturbing story to hear. I am living in Canada. Those parents should be with their child. I am not the only one disturbed by this.
03/14/2022 218pm		no name left	I am calling because I found out about this situation of the baby being taken from his parents because the mother didn't feel good. Baby Cyrus, this is just wrong. The baby needs to be returned to his parents. Doctors shouldn't have this kind of authority. The parents are not abusing the child. The child is underweight but they are doing what they are supposed to do. I am a concerned person who wanted to let you know I am aware of it. I wanted to let you know this is wrong and you are being watched. It will cost you less in the long run. You reap what you sew. Please do the right thing.
03/14/2022 212pm		no name left	Since when do f***** hospitals kidnap babies. Tell Dr. Aaron Dykstra to watch his f***** back. This s**** has to stop. Enough people have died because of your f***** covid and vaccines and the rest of this bulls***. Keep it f***** up.
03/14/2022 346pm		no name left	I don't need a phone call but I do want some answers about this baby being taken away from his loving parents. I understand he needs medical care but I don't understand why his parents won't be let in. It is absolutely gut wrenching, horrific, and terrible. I cannot believe the state of Idaho is allowing that. You might want to step up and tell the world your side, they are certainly getting the other side and nobody is happy.
03/14/2022 344pm		Sandy	You need to give baby Cyrus back. This is totalitarianism. We know you are trying to get rid of this baby. He needs to be with his mother. This is all part of the covid faky thing where people are on ventilators and being starved and dying. This is intentional depopulation. We know the vaccines are poisoning people. You need to give this baby back pronto. This is part of medical tyranny and this baby is getting worse and worse. People are being killed intentionally. This is America land of the free and home of the brave. You are doing this on purpose as a form of killing this child. There is nothing wrong with this baby or this family. Unacceptable. You need to give this baby back right now.
03/14/2022 212pm		Laura	Calling about baby Cyrus and his horrific treatment. By taking him and keeping him from his mother, she should be nursing as she wishes to do. You being part of medical kidnapping will not go unnoticed. Shame on you.
03/14/2022 210pm		Kristy	I wanted to express concern about what is happening with baby Cyrus. Marissa and Levi should have access to their child. I don't agree with the state having them not be able to see their child. The mother is breastfeeding.
03/14/2022 209pm		Terry	I am not a patient there but I am calling to ask you people to please let that baby go back to his mom or if he is full of contrast dye and hasn't had a bowel movement please ask nurse or doctor to get him detoxed so he does not die. I know you guys have a political agenda, but it would be good if this baby makes it out of your facility alive. A baby pooping is a big deal.
03/14/2022 206pm		Charles	I am a concerned citizen. I was notified your hospital medically kidnapped a child based on covid vaccine status.
03/14/2022 402pm		No Name left	Your hospital has absolutely no soul. You've kidnapped a baby. He needs to be returned to his parents ASAP. You people are disgusting. You should be ashamed of yourself. Whoever listens to this, run to your nearest church and find Jesus. Remove St. Luke's from your name because you are godless, soulless, disgusting lizards. Release baby Cyrus.
03/14/2022 355pm		Richard and Claudia Thomas	We will be here the rest of the day. You can get back to us on March 17th.
03/14/2022 205pm		Damian	I read online about this case. I was hoping to get word about the mother and child being reunited. It is an extreme circumstance. I have kids too and they depend on their mother. Based on what I saw there was no danger posed to the child. She isn't a drug addict. Please call me back. I would be relieved to hear about this.
03/14/2022 201pm		no name left	I was hoping to speak with someone live about Cyrus. I am hoping to hear he was released to his parents.
03/14/2022 158pm		Jennifer	I am calling about baby Cyrus. I am trying to figure out why he would be taken away from a nursing mother. I do not understand why she cannot be in the hospital with him. This is an outrage. This is absurd what is happening to this poor child. His mother should be with him. I will keep calling.
03/14/2022 157pm		Barry Allensworth	I understand you people have kidnapped another innocent child. Don't you realize hospitals are the 3rd leading cause of death in this country. What makes you think you can do anything better than these parents could. Its time to let him go back to his parents and be taken care of. You are a bunch of jerks.
03/14/2022 125pm	Janet	I refuse to leave my birthdate because I am not your patient. I am calling because your hospital has taken a child away from his parents. I am demanding he be reunited with his parents. We are praying for him. He is not being allowed to be breastfed by his mother and now he has a feeding tube against his parents will. His parents are his guardians. This is medical tyranny.	
3/14/22 117pm	Karen Andrews	My concern is that you are holding a child against the will of the parents. His parents have the right given to them by god to make medical or health decisions for their child. It is not the right of the hospital to take that right away. Please release this child to his parents and allow them to make appropriate medical decisions for him.	
03/14/2022 117pm	No Name left	I am calling regarding this child baby Cyrus. I am in shock. I don't know how this is legal for a hospital to keep a baby away from their parents. There is something morally wrong going on here. This is insane. The police took the baby away illegally and now you are holding the baby hostage. I will continue calling until someone answers. I will call every couple of hours. I hope whoever is in control of this takes a look at themselves. I am demanding you let the parents take custody back or let his parents see him. This is inhumane. There is no proof the baby is in jeopardy. You cannot treat other human beings like this. I hope you see a day in court about this. It is unjust.

03/14/2022 113pm	Redacted	Leticia	I live in Utah. What you are doing is mind blowing. You are harming that poor baby. Now he has to have a feeding tube because you won't allow him to have his mother's breast milk. What you are doing is wrong on so many levels. If that baby dies, his blood will be on your hands. I want you to know the whole world is watching how you medically kidnapped this poor child and the torture you are putting him through. It is horrific. Give this child breast milk. You are hurting him. I share this opinion with thousands of people. Stop medically kidnapping children and keeping them from their parents.	
03/15/2022 430pm		No Name left	I will never use this hospital ever again after I saw you kidnapped a child. It makes my heart want to cry. Me and my family will never go here again.	
03/15/2022 413pm		No Name left	I am calling from Pennsylvania. I read a story about how he was kidnapped. I am a mother of 3 and it breaks my heart you would do this evil thing. I am asking someone to come out and be godly and have some sense of mercy and let his mother be with him. Why do we live in a communist country. It is plain evil.	
03/15/2022 412pm		No Name left	I am wondering when you will let this baby go and be with his mother. He is very sick. Return him to his family.	
03/15/2022 407pm		Joanna	I would like to express my opinions on you holding baby Cyrus. Taking a baby away from a nursing mother, you should know how detrimental that is.	
03/14/2022 107pm		Sara	I was informed this baby was kidnapped by the police and I am calling to request the hospital return him to his mother. I am a nurse and know how important it is for a baby to continue breastfeeding. It sounds like he is not doing well in your care.	
03/14/2022 105pm		Tim Cox	I am 60 and I am calling about baby Cyrus. I want to express my outrage. Obviously you are setting up this voicemail as a blocking mechanism. The country is outraged over what is happening. I urge you to be humans, understand what is going on and that these are not bad parents. The state has overreached their bounds.	
03/14/2022 105pm		Haley	I am calling about baby Cyrus. Your organization is complicit in a kidnaping. He needs to be released.	
03/14/2022 104pm		No Name left	You guys are f*****. You are stealing people's babies and sending police to their houses. Nobody will bring their children to St. Luke's hospital. You guys are nuts. There is a lawsuit coming your way pal. You guys are f***** stupid.	
03/14/2022 102pm		No Name left	I have an issue with your team. They hang up on people. You guys are going to pay for what you did to families in Idaho and the baby that was kidnapped. I can't believe you have people willing to go along with whatever narrative there is. I am going to get a group of people together and make sure you guys are accountable for this and it will be taken care of in a court of law. Own up to your mistakes.	
03/14/2022 1256pm	Guy Monahan	I am calling on behalf of baby Cyrus. He is not getting proper medical care. Make sure he is given an enema so he can be relieved of his constipation.

Please reunite this family, visits are not enough and We the People will stand behind this family and fight because your actions and the action of the PD have angered every mother in America. Please reunite this family with their child 24/7, visits are not enough. We are standing behind this family and we are going to fight. You are not doing what is in the interest of this child and best interest is to be with mother and breastfed. I'm in ranching and I know this is how you kill something. We are watching you and we will continue to watch you.

643 am	Mark Triple	Redacted	Hi this Mark Triple out of Wyoming and I am a lawyer here to tell you that little baby Sirius needs to be with the mother at all times. The whole world is watching your suspicious activities so keep this in mind and pass along to your staff and others in your organization that you are being watched.
6:00 AM	John Longhurst		Hi this John Longhurst so I live in Meridian. 7/19/53 is my DOB. I'm calling to ask questions and protest about this baby named Sirius Anderson who was underweight and CPS got involved. His mother had to cancel an appt and CPS was called and Meridian PD had to get involved. The baby was forced from mother's arms at gun point according to email I received. Sounds like big time abuse from CPS and Meridian PD and I want to know what the heck happened and what is going to be done about this and how we will fix this so it doesn't happen again. Leave a message if I don't answer when you return the call.
333 am	Jenny Kaiser		Hello my name is Jenny Kaiser and I'm leaving a message and I've called repeatedly. I'm keeping in touch w/ baby Anderson's family and received an update today that after the parents were allowed to see the baby is that the baby's condition is worsening. It is absolutely agreeable that mother is not allowed to be in the room all the time to nurse. I'm demanding that she can be present to nurse at every available opportunity.
105 am	No name left		I'm calling about baby Sirius and I've been reading this story and I'm quite upset and not the only one. This baby should be given back to the parent. Thank you very much.
1224 am	No name left		I'm calling as a concerned person to release baby Sirius from the hospital's hands and give back to the parents where that child belongs. I know that you are aware of what I am talking about. I'm asking in God's name that this child be returned to his parents.
1205 am	Carla		Hi my name is Carla and I'm calling re: baby Sirius Anderson who is currently in the hospital's custody and I respectfully and firmly request this baby be returned to family. Violently removing baby from parent and trauma of removing child and lack of breast milk is not the best interest of the child. This separation is abuse and follow the Idaho law, otherwise, you will be responsible for his health outcome.
Sun 6:43 am	Mark		Mark and his lawyer - you need to release baby Cyrus to his parents. You are being watched
1204 am	Monica Mickinly		My name is Monica Mickinly and want to be called and explained why St. Luke's is not taking care of patients, medically stealing babies from their mother. You are not doing the wishes of the parent. You are supposed to have the best interest of child in mind when treating babies and your behavior over the last 24 hours in addition to behavior 3 weeks ago is (word inaudible). There will be charges filed. You are hiding a baby. You won't release his name, tell us how he is doing or let the family in. I'm disgusted and will be filing charges against you.
Sun 1135 pm	Josh Notter		Hi this is Josh Notter and I'm calling to find out what is really happening to baby Sirius. Please call me back.
Sun 1057 pm	Marrisa Goltman		Hi my name is Marrisa Goltman and I'm calling on behalf of baby Sirius and of his family and I'm asking that you relinquish this baby back to his family and your illegal hold of this baby. I'm sharing this far and wide in CA and this will go national and international and will have big populus to answer to. Do the right thing and release this baby back to his family.
Sun 1050 pm			
Mon 154 pm	No name left		I'm calling re: baby Sirius and held against his will. This is kidnapping and you will be held accountable. Do you really want to go to jail? You can look forward to that.
Mon 151 pm	No name left		This is a concerned citizen about the baby Sirius situation. I most certainly hope that St. Luke's is allowing his mother to come in and nurse him. You are basically holding that baby hostage away from his mother. I certainly hope St. Luke's has common sense and does the right thing.
Mon 147 pm	No name left		I had called awhile back and left a message. My wife was in the ER recently and we are very dissatisfied and ended up having to see a surgeon for f/u care. I did receive a callback 1 week ago and was asked to just call back. If you call, can you leave a direct number so I don't have to leave a message?
Mon 146 pm	No name left		This is Preshon Bowma calling from Moscow, ID calling about baby Sirius. Idaho is very clear about parental rights and I believe you at the hospital should be paying attention to the requests of the parent and what they think is beneficial for the care of the baby. This baby should be able to see his mother and part of the patient's rights. We will be contacting our legislature about this situation and you should be liable if you harm that baby.
Mon 146 pm			I'm calling about baby Sirius and a very concerned community member. Please allow the mother to breastfeed that baby before he dies.

Date and Time	Phone number	Caller Name	Details of call
Mon 136 pm		Redacted	I'm calling about a patient, young baby Sirus Anderson. We are asking that you would release Sirus to his parents. I know you are getting other calls but we feel very strongly about this. We feel like this is a over reach and inappropriate and ask that he be released to his parents.
Mon 136 pm			My name is Todd and I live in Rigby, ID. I am calling re: baby Sirus being reunited w/ his parents and would like to speak to someone there about what happened. My understanding is that the medical staff overstepped their bounds and took the child and the police acted unconstitutionally to enforce that. I would love your perspective and I believe the parents have concern over child, not the police or medical staff. As far as I know there was no abuse on the parents part. I'm asking for the medical side of the story re: this case and am requesting a call back.
Mon 135 pm			This is Debi in Canada calling from 906-203-0480 and I've heard about this kidnapping of baby Sirus and how this baby was abducted from his mom w/ a SWAT team. This is absurd and ridiculous..... Phone cuts out due to poor connection.

Mon 3:07 pm			Calling regarding baby Cyrus - you are disgusting - return baby

Also, I strongly encourage you to change your voicemail recording because baby Sirus care is not an 'exceptional experience'. This is kidnapping and wrong what you are doing. At least let the patient be w/ his parents or do the right thing and release the baby now.

Who was breastfeeding, who can't digest protiens in order to be healthy. In order to gain weight the baby needs the breast milk. I don't understand how you could do this to a family. Instead of working with the family. You separated a baby who needs the mother. Return the baby or else this is going to be blowed up more and more and more until you do.

At worst, this action looks like a politically motivated tactic, since the infant's grandfather is the organizer of a political action committee backing a gubernatorial candidate who is challenging our incumbent governor.</p> <p>I know that St. Luke's is an Idaho institution and rooted in a family-friendly tradition; meanwhile, the action of withholding the parents' access to this child seems inimical to family values. I hope that my letter will stimulate awareness on your behalf of the extremely questionable nature of this situation, and to reconsider your tacit support of it, since you are currently functionally keeping an infant and his mother apart.</p> <p>If you wish to contact me further for questions or additional comments, I can be reached by phone at (541) 410-9944, or by reply email.</p> <p>Kind regards,</p> <p>Lucy Mahaffey Gooding ID</p>

And Nurses who are giving care or expected to be giving care to Cyrus Anderson. It is a terrible evil to deny this, or any baby the very thing he needs, that is to nurse at his mother's breast. He has wonderful, loving, good parents and Cyrus needs to be placed back into the hands of his Mother and Father, IMMEDIATELY! This is not a case of parents not being qualified to care for their child, this is a case of government overreach and tyranny, to kidnap a baby from his mother's arms. We have heard from Cyrus's parents that he is in far worse condition under the hospitals care, as of last night, than he was a couple nights earlier under his parents care. DO SOMETHING NOW PEOPLE, WHOEVER IS THAT HIGH UP PERSON WITH AUTHORITY.... THAT SOMETHING TO DO IS, GIVE CYRUS BACK TO HIS MOTHER AND FATHER THIS MORNING! I urge and challenge you, DO THE RIGHT THING, if there is any good in your heart, you would do the right thing and give this boy back to his parents. This is evil and God will judge the evil doers, do not be one of them. There are going to be consequences for this kidnaping and it would be in the best interest of the hospital to release this sweet boy to his parents this morning.</p> <p>Do the work you must do to make this happen. And while his parents are on their way to get him, give him the care he needs, an enema if need be for constipation and the breast milk that's been donated.</p> <p>Sincerely, Annie</p>

How is it good for a mother to be separated from her child? Did Dr. Dykstra truly feel the child was being abused? From what I can see, it appears to be a serious over reaction and over reach of the governmental and medical bureaucracy and perhaps some overreaction on the part of the police as well.</p> <p>There doesn't seem to be any justification for separating the child from his mom. She should be allowed to be in the hospital to see her little one, provide the necessary breast milk, and ensure her own supply won't dry up. Dr. Dykstra started this chain of events, but you should help to make sure the child truly is safe and notify the hospital that there is no harm in allowing the mother to be reunited and present at the hospital.</p> <p>I understand, I may not have all the facts, but from what I do know, I can see no harm in reuniting the child with his mother in the hospital where they can both be observed and monitored. Waiting until a trial date set 4 days out may cause additional complications for both mother and child.</p> <p>Sincerely, James Porter 208-709-2711</p>

The mother reported that she canceled her doctor appointment with the pediatrician Dr. Dykstra because she was not feeling well. The appointment was a follow up check up. This is not a reason to remove a child from a families home. Even if the baby is under weight it does not mean the parents are abusive. I am passing this on to many contacts and have lost major respect for Boise Police and Saint Lukes. This pediatrician should have his license revoked for causing this! This is very disturbing! Please allow this family to see their baby and be with him! This can be traumatizing to this baby as well as the family! Sincerely, Beverly Fish</p>

Taking a child away from its nursing mother and loving family is NEVER OK! During this whole "pandemic" we were told to stay home if we are sick and to social distance. So the mother makes that decision to stay home since she wasn't feeling good and BAM! there goes her child! REALLY!!! I had a child that could not keep down food and I was unable to breastfeed. I had to take her to be weighed EVERY day (in December and lived at least 45 minutes from the pediatricians office). I had other small children at home. Dealing with an eating issue is very frustrating for a mother. Your heart breaks knowing what is happening to your child. There were several times I was not able to keep appointments due to weather, time conflicts, other responsibilities BUT in no way did that make me an abusive or neglectful parent. SHAME ON YOU! Hospitals have gotten a bad reputation during the whole "pandemic" not allowing family to be with dying family members etc...Time to change that reputation and do the right thing for Baby Cyrus! and his family. We are watching you and hope to NOT make an example of you to the rest of the world!</p> <p>Life is Great!! Dawna Howard</p>

This is not good patient care. Furthermore, your team has decided to tear apart a family and a nursing infant is deteriorating under your care due to your unwise decision. It is on record that the baby did not require a feeding tube until your staff deprived him long enough of nutrients by denying his mother to breastfeed. The poor decisions and on-going missteps is quickly adding up. Start by standing up for what is right. Allow the family to see their child and stop the trauma. The baby is being psychologically affected by your gross decision to continue to without his mother's presence and touch. This is terrible medical care.</p> <p>Lastly, your reputation in the community is extremely low. Many are leaving the St Luke's system. The blame cannot be placed on CPS alone. You know how important a baby/mother bond is and you've done great harm by allowing the separation to go on this long.</p> <p>Please, make this right. Allow the family in to be with Cyrus full time.</p> <p>Regards, Sara Allstot</p>

I believe his mother Marissa Anderson and her husband have done whatever they could to help their baby and it is completely despicable that the authorities would remove this infant from his mother’s arms in order to “protect him”. <p>Krissy Fulton **FYI** FW: Baby Cyrus - Please repsond</p>	<p>From: Krissy Fulton <KrisDF@protonmail.com> Sent: Monday, March 14, 2022 2:19 PM Subject: Baby Cyrus - Please repsond WARNING:This email originated outside of St. Luke's email system. DO NOT CLICK links or attachments unless you recognize the sender and know the content is safe.</p> <p>To Whom it May Concern,</p> <p>As you may have already heard, Baby Cyrus (an exclusively breast fed baby) was torn from his breastfeeding mother the other day, by CPS & local lawn enforcement under the claim of being malnourished. Since being the hospital he has refused the bottle (as his attentive mother said he would) and has not been able to defecate for 2 days.</p> <p>Please consider the following:</p> <ul style="list-style-type: none"> · It is vitally important to holistically consider the physical and psychological safety of infants. · Exclusively breastfed babies need their breastfeeding mothers to tailor make the nutrition they need for physical development. · Relationship patterns with loving primary care givers create the attachment environment in which infants gain the capacity to grow their bodies, brains, behaviors and belief systems. · Infants removed from their loving primary caregivers experience toxic stress and this event becomes an adverse childhood experience. · Infants who experience adverse traumatic events, especially in critical windows of neurodevelopment, can have life long changes in their bodies, brains, behaviors, and belief systems. · This is NOT in the best interest of Baby Cyrus who was in the care of his loving parents, had been taken to St. Luke's Childrens Hospital for care, released and then followed up with a medical professional. <p>The Science is VERY clear on child development and the needs of infants. In the absence of a criminal conviction (through due process) the least harmful option would have been to allow the Mom to remain with her baby, even under supervision if necessary. Please do EVERYTHING in your power to help reunite Baby Cyrus with his family.</p> <p>Thank you, Kris F.</p>

It is beyond inconceivable for anyone to believe that separating Baby Cyrus from his loving, caring, breastfeeding momma is in his best interest; especially considering the totality of his medical history.</p> <p>What I don't understand, is why none of you have done anything to stop this atrocity from happening in your facility? Complacency is complicity!</p> <p>The trauma this sweet little baby is going through by being separated from his nursing momma is pure unadulterated evil; in which I believe each and every one of you will ultimately be held accountable for if you continue to allow it.</p> <p>Please do the right thing now and immediately reunite Baby Cyrus with his momma.</p> <p>I can't even fathom how you can allow this to occur in your facility! Someone please enlighten me. Why aren't you doing something (at the very least) to allow momma to be with Baby Cyrus? Have you tried to do anything about it? Are you just sitting back and claiming it is not your responsibility? Or worse yet, are you in agreement and complacent?</p> <p>I'm purely guessing here, but I'm sure that some of you have children and maybe grandchildren. Can you even begin to imagine the pain and suffering? It's heart wrenching!</p>

I think it is clear to everyone that she is NOT neglecting her baby, and is a caring responsible mother. For Cyrus' sake, and potentially his life, please reunite this baby with his mother AS SOON AS POSSIBLE.</p> <p>If he is irreparably harmed, or God forbids, if he dies in your care, your hospital, and the doctors and administrators in charge, will be held responsible, even if it wasn't St-Luke's that gave the order. You may be charged with murder.</p> <p>This is a shameful situation and I hope that those of you in charge do the right thing, NOW, and let Marissa have unlimited access to her baby and be in charge of his medical care. While some may argue that their actions were in the best interest of the child, more and more information has come to light of the abuse and overreaction in the situation. Even more alarming is the seemingly intentional harm on the baby by the hospital staff. Why is infant, Cyrus, not being allowed to breastfeed? If the child is not taking foods, not taking formula well, placed on a feeding tube, and declining in health, why then is the infant not allowed to breastfeed? If your intention is health and to do no harm, why is the mother not able feed the infant? What policy comes before the well- being of any patient?</p> <p>There is so much more to address, but most importantly is the well being of baby Cyrus and his release back to his loving parents.</p> <p>In urgency, feed baby Cyrus.</p> <p>Jessica N. It is concerning to me that they are not allowed access to him. An infant so young needs to bond with his parents and breastfeed. It is integral to his health. This is not conjecture, it is scientifically verifiable. If CPS, his doctors, and St. Luke's hospital authentically care for this infant's well- being, separation from his parents should be DISCOURAGED. If the people involved with his removal feel he needs to be in a facility for monitoring, there is no justifiable reason to disallow his parents to stay by his side. Parents across Idaho see what you are doing. We stand behind baby Cyrus and his loving parents. We demand he has unobstructed access to his family. This is deplorable behavior by institutions we trust with our families' best interest. Do the right thing. Let his parents be at his side.</p> <p>-Ashley, concerned Idaho citizen and mother</p>

In the case of little Baby Cyrus, a child who has issues with processing feedings, it is even more critical for his mother to be with him so that she can feed him, because it has been shown that he is unable to process other forms of nourishment.</p> <p>The parents of this child have been taking him to physicians and specialists to find out what he can and cannot eat. Since when is a hospital complicit in kidnapping a child?</p> <p>This hospital is getting a HORRIBLE REPUTATION in Idaho.</p> <p>Please allow Cyrus parents to be with him.</p> <p>In addition, it should be understood that this couple should not have to pay for services provided by your facility which were not requested by the family.</p> <p>I would like to request that this child be given back to his parents IMMEDIATELY!</p> <p>CAROLYN KIESZ Midvale, Idaho</p>

This is not just cold hearted, it's PURE EVIL. SHAME SHAME SHAME ON YOU ALL.</p> <p>You should think about how your actions are causing harm and not the other way around. Baby Cyrus was illegally and brutally removed from his parents, because his mother cancelled a pediatric appointment, as she was ill. There was no interview; no investigation; no discussion with the parents before the brutal kidnapping.</p> <p>Sadly, so many laws were broken in this incident, that the hospital; CPS and the police department will eventually be paying millions in court judgements. Thru a fog of misinformation they cowardly sit back and spew lies and misinformation to thwart democracy at every turn. The Trump era really showed their supreme cowardice..and it lives on thru the party continued climate denial, and downplaying of Jan 6th. The partys strategists encourage continue to foment discontent hoping to garner a few votes for their crony cowardly politicians clientel. The party barely addresses the party's bullying tactics, not daring to speak against their gun-toting supporters. Escaping form Phx, Az many years back when gun violence started to rise with the advent of the 'liberalizing' of gun laws...as hospital nurse I saw countless pts who were the victims of gun violence, many of the perpetrators acting on what they felt was the code of the west: might makes right". The game changer now is social media. money grubbing right-wingers spew hate and discontent continuously thru online and videos outlets. They are money grubbing mercenaries who can afford security that hopefully keeps the mob from turning on them..which now we are witnessing. As far of R. party leadership, they care little about the fragile social contracts we all have with each other in maintaining our civil society, they have destroyed campaign finance laws that allow this authoritarian leadership as suck on the teat of our own home grown oligarchs. The party knows they can't win on ' policy' so they think that they can garner votes by sewing the 'seeds of discontent'. With a citizenry of adult who average less than 2 years of college- this is whole of ' stupid making'. I have witnessed this decay over my 68 years. The R. party thrives on the ignorant and poorly informed..as evidenced by the Treasure Valley having only junior, commmunity college and the big resistance there was to the creation of CWI by mostly Republican operatives /strategists who feared an informed citizenry. I escaped from a right wing Az, spawned 3 children who are all tax paying professionals but not with the help of our mean spirited Republican leadership who so outwardly disdain free thinking citizens. So now we are left with this mess. May God bless us and keep us from the rest of the partys evergrowing regressive agenda. Gary Trakas RN, and recent St Lukes pt.</p>
