Counsel for Plaintiffs

**IN THE DISTRICT COURT OF THE FOURTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF ADA**

ST. LUKE'S HEALTH SYSTEM, LTD; ST. LUKE'S REGIONAL MEDICAL CENTER, LTD; CHRIS ROTH, an individual; NATASHA D. ERICKSON, MD, an individual; and TRACY W. JUNGMAN, NP, an individual,

Plaintiffs,

vs.

AMMON BUNDY, an individual; AMMON BUNDY FOR GOVERNOR, a political organization; DIEGO RODRIGUEZ, an individual; FREEDOM MAN PRESS LLC, a limited liability company; FREEDOM MAN PAC, a registered political action committee; and PEOPLE'S RIGHTS NETWORK, a political organization and an unincorporated association,

Defendants.

Case No. CV01-22-06789

**DECLARATION OF ZACHERY J.
MCCRANEY TO ESTABLISH
FOUNDATION**

I, Zachery J. McCraney, declare and state as follows:

1. I am counsel of record for Plaintiffs in this matter. I am familiar with the facts and proceedings in this matter and have personal knowledge of the matters stated in this Declaration.
2. I have been a member of the Holland & Hart case team assigned to this case since its inception. I have personal knowledge regarding Holland & Hart's document collection, retention, and production practices for this case.
3. Defendants have not meaningfully provided discovery in this case. Indeed, Defendants have refused to provide discovery, even when ordered by the Court to do so, and have been sanctioned by the Court for their refusal to comply with Court orders and their discovery obligations. *See, e.g.*, June 12, 2023, Memorandum Decision and Order Granting Plaintiffs' Amended Motion for Sanctions Against All Defendants.
4. Because Plaintiffs have been unable to obtain discovery from Defendants, Plaintiffs have had to rely, in large part, on their own document and video collection efforts. I am one of the attorneys who personally oversaw two paralegals from Holland & Hart who harvested media content relating to this case at the direction of Holland & Hart attorneys. In addition, Plaintiffs have outsourced some document collection work to third-party litigation support vendors.
5. All Defendants are in default. And given Defendants' failure to comply with discovery or obey Court orders, Plaintiffs believe that it would be futile to request Defendants to stipulate to the admissibility of Plaintiffs' exhibits. Accordingly, Plaintiffs file this Declaration

to expedite the process, which Plaintiffs believe would have been streamlined had Defendants participated in the Court process.

6. Many of the exhibits Plaintiffs intend to use are still accessible online in the same or substantially similar format. *See Arroyo v. Corner*, No. 8:21-v-00564-DOC-(KESx), 2021 U.S. Dist. LEXIS 180466, at *2 (C.D. Cal. July 28, 2021) (“Moreover, this Court may take judicial notice of ‘publically [sic] accessible websites’”) (citing cases); Hon. Paul W. Grimm et al., *Best Practices for Authenticating Digital Evidence* 200 (2016) (“If the issue is what is on the website at the time the evidence is proffered, then there are no authenticity issues because the court and the parties can simply access the site and see what the website says.”) (citing authority).

7. In addition, Plaintiffs do not intend to use many of the exhibits to prove the truth of the matters asserted therein, but merely to show that certain images appeared on public websites. *Lebewohl v. Heart Attack Grill LLC*, 890 F. Supp. 2d 278, 298 (S.D.N.Y. 2012) (“where a litigant offers a printout from a third party website not to show the truth of the matter asserted, but ‘merely to show that certain images and text appeared on the website, they are not statements at all and thus fall outside the ambit of the hearsay rule’”). For example, Plaintiffs intend to introduce evidence showing Defendants’ false statements to show the types of statements Defendants made—not to show that the statements are true.

8. All Bates Numbers were applied by Holland & Hart.

BUSINESS RECORDS RECEIVED FROM THIRD PARTIES PURSUANT TO A SUBPOENA DUCES TECUM OR RECORDS REQUEST.

9. **[MPD records]** Trial Exhibits 5-29 are records that were received from Meridian Police Department pursuant to a subpoena duces tecum. Attached hereto as **Exhibit 1** is a true

and correct copy of a declaration of Kelly Herb, certifying these records as true, correct, and authentic copies. *See Idaho Rule of Evidence 902(11) (providing that certified copies of domestic records of a regularly conducted business activity are self-authenticating); Dep't of Fin., Sec. Bureau v. Zarinagar*, 167 Idaho 611, 629, 474 P.3d 683, 701 (2020) (exhibits self-authenticating when accompanied by a declaration from a qualified employee and when Defendant failed to show that the records' method or circumstances of preparation were untrustworthy"). Trial Exhibit 5 contains Functional Medicine of Idaho medical records, which were acquired by Meridian Police Department pursuant to a search warrant, and later produced to Holland & Hart via a subpoena duces tecum. After receiving these medical records, Holland & Hart applied Bates numbers, then sent the records to Functional Medicine of Idaho to ensure accuracy. Attached hereto as **Exhibit 2** is a true and correct copy of a declaration of LaChelle Tokioka, certifying these medical records as true, correct, and authentic copies.

10. **[BPD records]** Trial Exhibits 91-94 are records that were received from Boise Police Department pursuant to a subpoena duces tecum. Attached hereto as **Exhibit 3** is a true and correct copy of a declaration of Amber Geffon, certifying these records are true, correct, and authentic copies. *See Idaho Rule of Evidence 902(11); Zarinagar*, 167 Idaho at 629, 474 P.3d at 701.

11. **[Anedot]** Trial Exhibit 251 are records that were received from Anedot, Inc. pursuant to a subpoena duces tecum. Attached hereto as **Exhibit 4** is a true and correct copy of a declaration of Jarrett Cooper, certifying these records are true, correct, and authentic copies. *See Idaho Rule of Evidence 902(11); Zarinagar*, 167 Idaho at 629, 474 P.3d at 701.

12. **[GiveSendGo]** Trial Exhibit 355 are records that were received from GiveSendGo, LLC pursuant to a subpoena duces tecum. Attached hereto as **Exhibit 5** is a true

and correct copy of a declaration of Jacob Wells, certifying these records are true, correct, and authentic copies. *See Idaho Rule of Evidence 902(11); Zarinagar*, 167 Idaho at 629, 474 P.3d at 701.

13. [Gem County] Trial Exhibits 370-388 are records that were received from Gem County Sheriff pursuant to a public records request. Attached hereto as **Exhibit 6** is a true and correct copy of a declaration of Tanya Vaughn, certifying these records are true, correct, and authentic copies. *See Idaho Rule of Evidence 902(11); Zarinagar*, 167 Idaho at 629, 474 P.3d at 701.

14. [Reisse Perin] Trial Exhibits 393 are records that were received from Reisse Perin pursuant to a subpoena duces tecum. Attached hereto as **Exhibit 7** is a true, correct, and authentic copy of a declaration of Reisse Perin, certifying these records are true, correct, and authentic copies.

EVIDENCE RECEIVED FROM CONTRACTED THIRD PARTIES.

15. Holland & Hart identified online content that it wanted harvested for potential use in this case. It then contracted with a web capturing service provider that it has contracted with in the past, Page Vault Inc. (<https://www.page-vault.com/>), to have true and accurate copies of that content captured. Trial Exhibits 69-70, 224-227, 236-237, 351-354, 356-358, 365, 369, 449-511, 589, 636, 710, and 716 are true and copies of online content that Holland & Hart obtained from Page Vault Inc. Attached hereto as **Exhibit 8** are true and correct copies of affidavits of agents of Page Vault Inc., stating that the content captured by Page Vault Inc. is true and accurate. In addition, many of these exhibits are posts from the <https://freedomman.org/> website, which Defendant Diego Rodriguez has, by failing to respond to Plaintiffs' requests for admission, admitted that he owns, controls, posts, and approves of the content posted on

<https://freedomman.org/>. See June 16, 2023, Notice of Service of Requests for Admission, Ex. E (Requests for Admission 6-12); Idaho Rule of Civil Procedure 36(a)(4) (“A matter is admitted unless, within 30 days after being served, the party to whom the request is directed serves on the requesting party a written answer or objection”). He’s also stated in a deposition that “[t]he only person who has ever had access and control of [https://freedomman.org/] from the time it began until now is just me” and that the “website is [his] personal blog.” Trial Exhibit 448 (17:6-12; 18:20-25). In addition, Mr. Rodriguez has, by failing to respond to Plaintiffs’ requests for admission, admitted that a number of these documents are true and correct copies. See June 16, 2023, Notice of Service of Requests for Admission, Ex. E (Requests for Admission 112-174). In addition, many, if not all, of these posts are still accessible online in the same or substantially similar format.

16. **[Ubiquis Transcripts]** Holland & Hart identified videos and audio that it wanted transcribed for use in this case. It then contracted with a third-party transcription service provider that it has contracted with in the past, Ubiquis (<https://www.ubiquis.com/en-us/>), to have that media transcribed. Trial Exhibits 407-447 are certified copies of transcripts that Holland & Hart obtained from Ubiquis. Each transcript contains a certificate stating the transcript was prepared using standard electronic transcription equipment and is a true and accurate record to the best of the preparer’s ability. See *In re Terrorist Attacks on September 11, 2001*, No. 03-MD-1570 (GBD)(SN), 2021 U.S. Dist. LEXIS 225478, at *246-47 (S.D.N.Y. Nov. 19, 2021) (“transcript of a YouTube video recording . . . that was created when a paralegal copied and pasted the transcript from the website, then saved it as a Word document, which they converted into a PDF[,]” deemed authentic when the court “checked th[e] link and confirmed that . . . th[e] video remain[ed] on YouTube”) (citation omitted). In addition, as of the date of this declaration,

many of the videos that Ubiqus transcribed are still accessible online. Below is a chart showing the exhibit number of each transcript, the corresponding media source, and, if the media source is no longer accessible, an alternative URL for the source, if available.

COURT FILINGS, DEPOSITION TRANSCRIPTS, AND HOLLAND & HART LETTERS.

41. **[Court filings]** Trial Exhibits 256-257 are court filings. Plaintiffs intend to request the Court to take judicial notice of these filings pursuant to Idaho Rule of Evidence 201.
42. **[Diego transcript]** Trial Exhibit 448 is a true and correct copy of a certified deposition transcript with exhibits for Defendant Diego Rodriguez. *See* Idaho Rule of Evidence 902(8) (documents that are “accompanied by a certificate of acknowledgment that is lawfully executed by a notary public or another officer who is authorized to take acknowledgments” are self-authenticating).
43. **[HH cease-and-desist letters]** Trial Exhibits 634 and 641 are true and correct copies of cease-and-desist letters that Holland & Hart sent to Defendants Diego Rodriguez and Ammon Bundy, respectively. Trial Exhibit 634 was emailed to Defendant Diego Rodriguez on January 27, 2023. Trial Exhibit 641 was taken to Mr. Bundy’s home on January 20, 2023, by Plaintiffs’ counsel, Jennifer Jensen. A copy of the Protective Order that was entered in this case was included with the cease-and-desist letters.

EXPERT DOCUMENTS.

44. Trial Exhibits 395-406 contain the expert reports for the experts that Plaintiffs intend to have testify at the damages hearing, as well as the files for each expert. For efficiency,

Plaintiffs intend to seek to have the expert reports admitted into evidence before the damages hearing. But Plaintiffs can do this at the damages hearing if the Court deems it more appropriate at that time.

I declare under penalty of perjury of the laws of the State of Idaho that the foregoing is true and correct.

DATED: June 28, 2023.

DECLARATION OF CUSTODIAN OF RECORDS OF MERIDIAN POLICE DEPARTMENT

I, Kelly Herb, declare as follows:

I am employed by and am the duly authorized custodian of records and am authorized to certify records for Meridian Police Department.

I certify that I produced records to Holland & Hart pursuant to the attached subpoena duces tecum. The records produced pursuant to the attached subpoena duces tecum are true, correct, and authentic copies of records maintained in the regular course and scope of business of my employer and were prepared by authorized personnel at or near the time of the acts, conditions or events which they intend to convey. It is the regular practice of Meridian Police Department to make and preserve such records.

The records I produced to Holland & Hart include copies of medical records provided to Meridian Police Department by Functional Medicine of Idaho pursuant to a search warrant. Like the other records I produced to Holland & Hart, the medical records were maintained in the regular course and scope of business of my employer. It is the regular practice of Meridian Police Department to preserve such records.

I declare under penalty of perjury under the laws of the State of Idaho that the foregoing is true and correct.

Case No. CV01-22-06789

AFFIDAVIT OF TODD W. PRICE

Affidavit of Todd W. Price

I, the undersigned, do hereby certify and affirm that:

1. I am over the age of 18 and am not a party to this action. All forthcoming facts are based on my personal knowledge, which I would be willing to testify competently to if called as a witness at trial.
2. I am the Chief Technology Officer at Page Vault Inc., headquartered at 401 E. Ontario St., Chicago, Illinois, 60611. I have been so employed since March 2013.
3. Page Vault is a cloud-based service that enables Users to make captures of Web Content, including webpages, online media files such as videos, and online documents.
4. When capturing Web Content, a User provides URLs (Uniform Resource Locators) associated with the Web Content to be captured by the Page Vault Capturing Server (PVCS). This is accomplished either through the Page Vault Browser (PVB) interface or through the Page Vault Portal (PVP) interface.
5. When using the PVB interface, a User establishes a connection from their computer to the PVCS. This connection operates over an encrypted channel and allows the User to remotely control the Page Vault Browser (PVB) software that is installed on the PVCS.
6. The PVB is a proprietary browser that utilizes a Chromium browser engine. The PVB restricts the User from modifying the Web Content, accessing or modifying a webpage's source code, installing browser plugins, or otherwise altering the contents of the Web Content or the internet traffic between Web Servers (WS) and the PVCS.
7. As a User controls the PVB, the PVCS establishes an active web browsing session with various WS.
8. Remotely controlling the PVB, a User can direct the PVCS to create Captures of Web Content associated with a URL.
9. When using the PVP (Page Vault Portal) interface, a User establishes an authenticated session to the PVCS and provides a URL that is associated with Web Content to be collected.
10. Through the PVP interface, the User directs the PVCS to initiate a secure connection to WS and create Captures of the Web Content associated with the provided URL.
11. Captures can include the way the Web Content for the specified URL appeared in the PVB interface along with associated metadata. Captures are digitally signed and hashed.

12. Page Vault securely stores Captures, which Users can access, review, and download.

13. Attached hereto are true and accurate copies of Captures of the PVCS.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Executed this 28th day of February , 2023 at Evanston , Illinois .

Todd W. Price

Case No. CV01-22-06789

AFFIDAVIT OF TODD W. PRICE

Affidavit of Todd W. Price

I, the undersigned, do hereby certify and affirm that:

1. I am over the age of 18 and am not a party to this action. All forthcoming facts are based on my personal knowledge, which I would be willing to testify competently to if called as a witness at trial.
2. I am the Chief Technology Officer at Page Vault Inc., headquartered at 401 E. Ontario St., Chicago, Illinois, 60611. I have been so employed since March 2013.
3. Page Vault is a cloud-based service that enables Users to make captures of Web Content, including webpages, online media files such as videos, and online documents.
4. When capturing Web Content, a User provides URLs (Uniform Resource Locators) associated with the Web Content to be captured by the Page Vault Capturing Server (PVCS). This is accomplished either through the Page Vault Browser (PVB) interface or through the Page Vault Portal (PVP) interface.
5. When using the PVB interface, a User establishes a connection from their computer to the PVCS. This connection operates over an encrypted channel and allows the User to remotely control the Page Vault Browser (PVB) software that is installed on the PVCS.
6. The PVB is a proprietary browser that utilizes a Chromium browser engine. The PVB restricts the User from modifying the Web Content, accessing or modifying a webpage's source code, installing browser plugins, or otherwise altering the contents of the Web Content or the internet traffic between Web Servers (WS) and the PVCS.
7. As a User controls the PVB, the PVCS establishes an active web browsing session with various WS.
8. Remotely controlling the PVB, a User can direct the PVCS to create Captures of Web Content associated with a URL.
9. When using the PVP (Page Vault Portal) interface, a User establishes an authenticated session to the PVCS and provides a URL that is associated with Web Content to be collected.
10. Through the PVP interface, the User directs the PVCS to initiate a secure connection to WS and create Captures of the Web Content associated with the provided URL.
11. Captures can include the way the Web Content for the specified URL appeared in the PVB interface along with associated metadata. Captures are digitally signed and hashed.

12. Page Vault securely stores Captures, which Users can access, review, and download.

13. Attached hereto are true and accurate copies of Captures of the PVCS.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Executed this 28th day of February , 2023 at Evanston , Illinois .

Todd W. Price

Defendants.

Case No. CV01-22-06789

Affidavit of Todd W. Price

I, the undersigned, do hereby certify and affirm that:

1. I am over the age of 18 and am not a party to this action. All forthcoming facts are based on my personal knowledge, which I would be willing to testify competently to if called as a witness at trial.
2. I am the Chief Technology Officer at Page Vault Inc., headquartered at 401 E. Ontario St., Chicago, Illinois, 60611. I have been so employed since March 2013.
3. Page Vault is a cloud-based service that enables Users to make captures of Web Content, including webpages, online media files such as videos, and online documents.
4. When capturing Web Content, a User provides URLs (Uniform Resource Locators) associated with the Web Content to be captured by the Page Vault Capturing Server (PVCS). This is accomplished either through the Page Vault Browser (PVB) interface or through the Page Vault Portal (PVP) interface.
5. When using the PVB interface, a User establishes a connection from their computer to the PVCS. This connection operates over an encrypted channel and allows the User to remotely control the Page Vault Browser (PVB) software that is installed on the PVCS.
6. The PVB is a proprietary browser that utilizes a Chromium browser engine. The PVB restricts the User from modifying the Web Content, accessing or modifying a webpage's source code, installing browser plugins, or otherwise altering the contents of the Web Content or the internet traffic between Web Servers (WS) and the PVCS.
7. As a User controls the PVB, the PVCS establishes an active web browsing session with various WS.
8. Remotely controlling the PVB, a User can direct the PVCS to create Captures of Web Content associated with a URL.
9. When using the PVP (Page Vault Portal) interface, a User establishes an authenticated session to the PVCS and provides a URL that is associated with Web Content to be collected.
10. Through the PVP interface, the User directs the PVCS to initiate a secure connection to WS and create Captures of the Web Content associated with the provided URL.
11. Captures can include the way the Web Content for the specified URL appeared in the PVB interface along with associated metadata. Captures are digitally signed and hashed.

12. Page Vault securely stores Captures, which Users can access, review, and download.

13. Attached hereto are true and accurate copies of Captures of the PVCS.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Executed this 21st day of February , 2023 at Evanston , Illinois .

Todd W. Price

Case No. CV01-22-06789

AFFIDAVIT OF TODD W. PRICE

Affidavit of Todd W. Price

I, the undersigned, do hereby certify and affirm that:

1. I am over the age of 18 and am not a party to this action. All forthcoming facts are based on my personal knowledge, which I would be willing to testify competently to if called as a witness at trial.
2. I am the Chief Technology Officer at Page Vault Inc., headquartered at 401 E. Ontario St., Chicago, Illinois, 60611. I have been so employed since March 2013.
3. Page Vault is a cloud-based service that enables Users to make captures of Web Content, including webpages, online media files such as videos, and online documents.
4. When capturing Web Content, a User provides URLs (Uniform Resource Locators) associated with the Web Content to be captured by the Page Vault Capturing Server (PVCS). This is accomplished either through the Page Vault Browser (PVB) interface or through the Page Vault Portal (PVP) interface.
5. When using the PVB interface, a User establishes a connection from their computer to the PVCS. This connection operates over an encrypted channel and allows the User to remotely control the Page Vault Browser (PVB) software that is installed on the PVCS.
6. The PVB is a proprietary browser that utilizes a Chromium browser engine. The PVB restricts the User from modifying the Web Content, accessing or modifying a webpage's source code, installing browser plugins, or otherwise altering the contents of the Web Content or the internet traffic between Web Servers (WS) and the PVCS.
7. As a User controls the PVB, the PVCS establishes an active web browsing session with various WS.
8. Remotely controlling the PVB, a User can direct the PVCS to create Captures of Web Content associated with a URL.
9. When using the PVP (Page Vault Portal) interface, a User establishes an authenticated session to the PVCS and provides a URL that is associated with Web Content to be collected.
10. Through the PVP interface, the User directs the PVCS to initiate a secure connection to WS and create Captures of the Web Content associated with the provided URL.
11. Captures can include the way the Web Content for the specified URL appeared in the PVB interface along with associated metadata. Captures are digitally signed and hashed.

12. Page Vault securely stores Captures, which Users can access, review, and download.

13. Attached hereto are true and accurate copies of Captures of the PVCS.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Executed this 28th day of February , 2023 at Evanston , Illinois .

Todd W. Price
