D30	5/27/2023	This time last year, Diego and I celebrated CPS' reluctant return of Diego's grandson Cyrus. However, since then we have been hunted like the early day reformers and are now both fugitives of the law. All because we would not stay silent about the wrongful taking of baby Cyrus. D43	7/24/2023	Massive institutions combined with the state, financially benefitting when they take a child is one of the worst combinations a parent can imagine. Therefore, to counter, the cost of stealing a baby must be extremely high and good people must assure strong consequences when it happens. Idaho CPS agents, Meridian police & St. Luke's staff so far have gotten off easy. They may have the means to use the courts to cover for their actions, but taking a baby from loving parents no matter how they abuse the courts is wrong and should never happen! People in a jury deciding how much St. Luke's is going to take from those who exposed the truth about them is a mockery to justice. When a baby is born he or she does not become property of the state or hospital executives. Bundy says that is fine to allow parents to starve their child, to place his life in danger as long as its not the state trying to save his life. Just as he did in Grant county Oregon when he took over public land for his own use, he is willing to allow a child to die to further his cause.

Marge Loennig sounds more like they had a doctor without any good solutions who would rather abuse his authority then strive to keep infant and mother together and help them thrive.

Doesn't St Luke's realize how bad this makes them look? This is a hospital ! No way would I patronize them or bring a child there. Watch on Netflix " Take Care of Maya" Same situation . I believe they have formed a group for situations like this and should be sued for emotional distress. These lawyers have no integrity and should be kicked off the bar for weaponizing their degrees.

Chris Roth is going to cost his hospital a lot of money just because he hates you. They will lose our business because of their actions. I won't personally tolerate a big company that pulls this kind of thing. What they did is wrong and they should apologize for it. What you did was peaceful and fair. Anyone that uses their power to intimidate political opponents will face the consequences when elections come up.

Here is proof that St.Luke's KNEW that Baby Cyrus was not in imminent danger the night he was taken. Yet they kept him from his mother (his only source of nutrition) anyways.
The State of Idaho has admitted they were wrong, returned Cyrus and dropped all charges against the family.
Why won't St.Luke's admit they were wrong and drop the lawsuit?

This time last year, Diego and I celebrated CPS' reluctant return of Diego's grandson Cyrus. However, since then we have been hunted like the early day reformers and are now both fugitives of the law. All because we would not stay silent about the wrongful taking of baby Cyrus. We are now in a new stage of deterioration in the legal process where our children can be taken and if we don't shut up about it powerful institutions will use the force of law to punish us.

Ammon Bundy

Massive institutions combined with the state, financially benefitting when they take a child is one of the worst combinations a parent can imagine. Therefore, to counter, the cost of stealing a baby must be extremely high and good people must assure strong consequences when it happens. Idaho CPS agents, Meridian police & St. Luke's staff so far have gotten off easy. They may have the means to use the courts to cover for their actions, but taking a baby from loving parents no matter how they abuse the courts is wrong and should never happen! People in a jury deciding how much St. Luke's is going to take from those who exposed the truth about them is a mockery to justice. When a baby is born he or she does not become property of the state or hospital executives. CPS agents, Meridian Police Officers and St. Luke's staff would do well to remember that.

St. Luke's Children's Hospital webpage is still advertising minor hormone therapy and sex change surgeries. This video gives proof. Here is a link to one of St. Luke's Hospital pages advertising transgender surgeries and hormone therapy for minors: Idaho passed a law that made both minor hormone therapy and child sex change surgeries illegal. However, that Idaho law does not go into effect until 2024. I guess all the children until then are sacrificial lambs to St. Luke's Hospital Executives.

Americans need to stand up. CPS has been weaponized to take people's children. CPS has been authorized to lie to take a child.

Here's a Dr that no one should be going to. CPS needs to have their license taken away. Question why is a Dr wanting to take away a baby does she have someone that wants a baby? This is the first question that came to my mind
